Chittenango Central School District
District-Wide Safety Plan

INTRODUCTION

District-wide SAVE Plan: This District-wide safety plan has been developed to comply with the mandates of the Safe Schools Against Violence in Education Act (“Project SAVE”) and the Regulations of the Commissioner of Education at 8 NYCRR Section 155.17(c)(1). This plan shall be reviewed on an annual basis on or before September 1st of each year.

Board of Education Approval: The Board of Education appointed a District-wide School Safety Team, comprised of representatives of the school board, administrators, faculty, staff, parent organizations, students, school safety personnel and other individuals, to develop the plan. It provides standard procedures to guide staff and students of the Chittenango School District when responding to an emergency. It also sets forth the required drills to keep staff and students familiar with the standard response procedures. The original District-wide plan was adopted by the Board of Education on 9/1/2007 and submitted to the State Education Department on 9/1/2007.

Scope of Plan: Emergency situations can range from man-made problems such as power outages, fires and bomb threats to natural disasters like blizzards and floods, and may present highly dangerous situations or mere inconveniences. In an emergency situation, the District’s priorities are first the protection of life, then preservation of property, and restoration to normal activities. This Plan and the Building Safety Plans describe procedures for a variety of emergencies. Obviously, no plan can cover all possible emergencies. Therefore, District officials are to use their judgment and discretion in responding to an emergency in a manner consistent with the provisions of this Plan and the applicable school Building Safety Plan in a manner that will minimize loss of life, personal injury and property damage.

Project SAVE requires that this Plan include policies and procedures on several prescribed topics. In some instances, only a general policy on a prescribed topic is described for the District as a whole. Specific emergency responses to various contingencies (i.e. bomb threats and dangerous persons), and the confidential procedures to implement such responses, are included within the Building-level Safety Plans specific to each school.

Building-level Plans: Building-level safety plans have been developed to comply with Project Save to establish specific emergency response plans for each school building. These building safety plans provide detailed response procedures for each school building in the District. In contrast to this Plan, which is accessible to the public, the Building-level Plans are confidential and not subject to disclosure under Article 6 of the Public Officers Law, the Freedom of Information Act, or any other provision of law, in accordance with Education Law, Section 2801-a. Therefore, the Building-level plans provide a confidential means to outline sensitive emergency procedures not included herein.

Building-level Plans: - Continued

Such plans comply with the requirements of Education Law §2801-a (3) and the Regulations of the Commissioner of Education at 8 NYCRR §155.17(c)(2) and have been established for each instructional facility as follows.

1. Chittenango High School
2. Chittenango Middle School
3. Bolivar Road Elementary School
4. Bridgeport Elementary School

District Chain of Command: The Superintendent is the “Individual In Charge”. In his/her absence the responsibility will go to the next alternate person in charge as detailed below. When the Individual-In-Charge has been notified that an emergency exists, he/she will serve as “Incident Commander”, activating the appropriate procedures, directing the emergency response actions and serving as part of a unified command system with emergency responders. Administrative chain of command (person in charge) if the Superintendent of Schools is not available:

Assistant Superintendent for Business
Assistant Superintendent for Instructional Services
Director of Special Ed. & Pupil Personnel Services

Command Post: If the crisis demands the necessity to establish a “Command Post”, the District Office will be used for this purpose.

1. Utility Shut-off (Gas, Water, and Electrical)
2. Phone jacks for outside lines
3. Chemical Storage areas
4. Mechanical Storage areas
5. Kitchen area(s)
6. Mechanical rooms (HVAC, etc.)

The Building Safety Plans will include map renderings and floor plans of each building. The potential hazards for each building will be clearly indicated, and are placed with appropriate agencies.

The buildings covered in this plan include:

1. Chittenango High School, 150 Genesee Street, Chittenango, NY 13037

We have surveyed sources of potential emergencies within our school buildings, grounds and community locations. Site-maps and floor plans of our buildings have been provided to local police and law enforcement but are kept confidential due to security reasons. Our instructional sites are all located within proximity to highways, industry and/or airports. A survey of vulnerability is included in each building level plan.

3. STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv)

A. GENERAL EVACUATION

Evacuations may be necessary in the event of fire, weather, other emergency, or violent incident. Upon notification of the need to evacuate, teachers should instruct students to remain calm and quiet, and depart the building in an orderly fashion according to previously established evacuation routes, or alternate routes as instructed.

1. Building occupants will be notified to evacuate the building by one of the following means depending upon the nature of the emergency:
 - (a) Fire Alarm
 - (b) Intercom System
 - (c) Verbal or Written Notification

Chittenango Central School District
District-Wide Safety Plan

3. STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv) - Continued

A. GENERAL EVACUATION - Continued

2. Upon receiving an evacuation notice, faculty and staff shall survey their areas and evacuation routes for hazards and/or suspicious hazards in order to ensure a safe and expeditious evacuation.
3. The normal evacuation route(s) for students, faculty and staff for each school shall be specified in the Building Safety Plan and included in the Emergency Response Bag “Gotta-Go Bag”. Normal evacuation routes will also be posted in each room.
4. Teachers are to bring their Daily Attendance Records with them. Attendance shall be taken upon evacuating and again if relocated to an alternate site. Teachers may be asked to turn in their Attendance Roster to the Building Administrator for use at the emergency command post.
5. Normal evacuation routes will be used unless the emergency prevents use of exits and/or corridors. Alternate routes may be announced using the school’s intercom system. The intercom system shall not be used in situations that may endanger students/staff (e.g., barricaded gunman). In the event of power failure, the Building Administrator can direct ancillary staff to communicate alternate evacuation routes.
6. Suspicious items found must be left alone and immediately reported to the Building Administrator and/or emergency service personnel.
7. Persons evacuating should remain calm and orderly in order to prevent panic and confusion.
8. Elevators may not be used for evacuation purposes unless approved by the Building Administrator or emergency personnel.
9. All persons shall proceed to the designated Assembly Area and remain there until further notice.
10. Teachers must take attendance once in the designated Assembly Area, and are to notify the Building Administrator if a student is not present.
11. Any time teachers have to relocate their class, attendance should be taken before departure and upon arrival. If students are to be evacuated off-campus, teachers are to take attendance before students begin loading on the buses and once the buses are loaded, to assure that all students are accounted for.
12. Occasionally, there may be a need to relocate students from the Assembly Area to a predetermined Relocation Center. If evacuation is ordered beyond the Assembly Area, students will be evacuated by bus either to their homes or a safe location. The decision to evacuate the Assembly Area will be made by the Incident Commander upon consultation with the Superintendent. Students will not be allowed to go home on their own (i.e., walking or in personal vehicles). A parent or a pre-arranged surrogate may sign a Student Release Form and pick up their child at the designated reunification site.

3. STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv) - Continued

A. GENERAL EVACUATION - Continued

13. The School Nurse should have a medical alert list and supplies readily available at all times. For supplies not on hand the School Nurse will be prepared to make arrangements to provide medical assistance at the relocation site or along the evacuation route as necessary in coordination with the Building Administrator and the Incident Commander.
14. Building Administrators will follow directions received from the Superintendent and/or the Incident Commander. Principals will determine when staff may be permitted to leave after their students have been safely released and they are no longer needed for emergency duties.

B. EVACUATION OF DISABLED STUDENTS, STAFF AND FACULTY

In the event of an evacuation, special care must be taken to ensure that disabled persons are safely transported out of the building. Each Building Safety Plan shall have a list of special needs students and the persons who have been designated to assist them.

1. An Assisted Evacuation Plan form (See Appendix O) is included within the Building Level Safety Plan. This plan should include every child or staff member who has limited mobility and will be reviewed as necessary (i.e.) when students and personnel change.
2. In case of an Emergency, where evacuation or a long-term stay on-site is required, the Director of Special Education and designated staff will respond to the Relocation Center or to the designated Assembly area to assist with special education students and staff who serve them.
3. If coordinated services are required from outside agencies that specialize in dealing with students with disabilities, the Director of Special Education and or designated staff will act to facilitate the use of such groups.

C. HOLD-IN-PLACE

A Hold-In-Place procedure is used to limit movement of students and staff in hallways while dealing with short term emergencies.

In the event the Building Administrator, or person-in-charge, is advised or deems it necessary to initiate a Hold-In-Place, the following procedures will commence.

- a. The Building Administrator, or designee, will apprise all staff members over the PA system;
- b. Listen for instructions about the situation and your expected actions;
- c. Students in hallways should return to assigned classroom, if possible;
- d. Classroom teachers, take attendance. If students from other class(es) are present, notify instructor(s) of home classroom;
- e. All other staff assist students, as needed;
- f. Classroom instruction can continue as normal;
- g. Do not respond to class bells;
- h. Classroom telephone may be answered;
- i. Respond to fire alarm as normal;
- j. Listen for updates and further instructions.

D. SHELTERING

Not all Emergencies will require building occupants to get out and go somewhere else. A **sheltering procedure** is appropriate for situations when it is necessary to hold students in an inside Assembly area temporarily during an Emergency until things can be returned to normal or dismissal can be arranged. Protocols for a sheltering response for each school building are in the Building Safety Plans. General procedures are as follows:

1. Upon receiving instruction from local, county, or state governmental emergency response agencies the Superintendent shall notify the Building Administrator(s) of the need to initiate the Sheltering Plan.
2. If an incident occurs near school and the Building Administrator is the first to be informed, he or she shall make a decision, based upon the nature of the emergency or upon the direction of local emergency commanders, whether to shelter all students and staff inside the school building. The Building Administrator shall inform the Superintendent and the 911 Control Center of the determination.
3. Upon notification of an Emergency or the exercise of a drill, the Building Administrator shall instruct students and staff to report to the designated 'inside' Assembly area. Faculty are to bring their class roster with them and maintain charge of their class in the Assembly area unless otherwise directed.
4. During sheltering for certain types of air pollution problems, chemical spills or radiological emergencies, windows should be closed and ventilation systems and outside air intakes should be shut down.
5. The Building Administrator will assign appropriate duties to selected staff members and custodian, to include securing the building
6. Students/staff will remain inside the building until the Building Administrator is advised by the Incident Commander or emergency management authorities to take further action.
7. If such procedure necessitates remaining in school after hours, the Superintendent, or designee, will issue a public notice to this effect through the local news media. Parents will be advised as to appropriate responses, including, where to sign-out their child (if appropriate). As necessary, the Superintendent will coordinate the use of district resources in cooperation with the Incident Commander and request assistance from County Emergency Management Office, the American Red Cross and other agencies as appropriate
8. The Building Administrator will keep the teaching staff, the school nurse, the custodial staff, and the cafeteria staff informed.

3. STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv) - Continued

E. LOCK-DOWN

A lock down procedure is appropriate for situations, which mandate that students remain in one location until authorized to move. Protocols for a Lockdown response for each school building are in the Building Safety Plans. General procedures are as follows:

1. A lock-down procedure is called when leaving or walking through the building would endanger the health and safety of the students or staff, i.e. dangerous intruder.
2. The Building Administrator will apprise all building occupants of a lock-down order using a plain language announcement. Students and staff shall remain in their classrooms or work-area until the Building Administrator and/or law enforcement officials open the door.
3. The Building Administrator will contact the local 9-1-1 emergency responders and notify the Superintendent.
4. Building staff shall lock their doors and secure students out of the line of sight.
5. Parents will be advised as to preferred responses, and are NOT to report to the school to sign out their child. The Superintendent, or designee, will provide information and updates to parents and the media at the media reception area at a predetermined location.

F. LOCK-OUT

A lock-out procedure most commonly used when the incident is occurring outside the school building, on or off school property, which allows the school to continue with the normal school day, but curtails outside activity, and allows no unauthorized personnel into the building.

1. The Building Administrator, or person-in-charge, will apprise all building occupants that lock-out procedures are being implemented using a plain language announcement.
2. The Building Administrator will contact local 9-1-1 emergency responders (if not first apprised by law enforcement) and notify the Superintendent.
3. If the emergency dictates, building staff should close and lock windows.
4. Students/staff who are on the school grounds will be immediately summoned to return to the school building
5. The Building Administrator will assign selected staff members and/or custodian(s) to secure the building.
6. The main entrance will be monitored. Only AUTHORIZED personnel will be allowed in the building
7. Modify normal dismissal procedures as appropriate.

3. STANDARD EMERGENCY RESPONSE PROCEDURES - 155.17 (c)(1)(xv) - Continued

G. EARLY DISMISSAL

An early dismissal is appropriate in the event of a system failure, such as heating, plumbing or electrical failure, that renders the building unsuitable for instructional purposes. Early dismissal may also be a viable option for other emergency situations as decided by the Superintendent. Each Building Safety Plan shall contain specific information on how the school district communicates with parents or guardians regarding the early dismissal. That information is detailed in the Building-level plans.

1. Early dismissal is available as a building evacuation option for Emergency situations as decided by the Superintendent or designee.
2. Similar to evacuation, early dismissal (or “go home”) is merely a procedure for getting students out of the building and united with their families or with responsible individuals who have been designated by the parents to care for the child in their absence.
3. Emergency contact information will be utilized to facilitate uniting students with their families or with responsible individuals who have been designated by the parents to care for the child.
4. Early dismissal will follow normal dismissal procedures unless the situation warrants otherwise. The Building Administrator or designee, as the Emergency dictates will select alternate dismissal procedures and/or loading areas.

District-Wide Safety Plan

4. PREVENTION AND INTERVENTION STRATEGIES (c)(1)(iii)

The Chittenango School District operates a number of specialized programs, some at the District level and some at the building level, which deal with students whose needs and/or disabilities put them at risk of inappropriate or violent behavior. These programs have specialized components to reduce and eliminate the possibility of student violence. One such District-wide program is described below:

A. SPECIAL EDUCATION PROGRAMS

1. The programs serving students with emotional disabilities provide services include individual counseling, referrals for psychiatric evaluation and/or therapy delivered through private clinicians, County Mental Health or local hospital services. Services provided by the district social worker and/or school psychologists meet with students and families and initiate or recommend behavior management programs in concert with outside agencies as appropriate. Special Education staff work with school counselors, administration, faculty and parents in addressing conflict issues and pursuing collaborative responses with students who are at risk for inappropriate or violent behavior.
2. The code of conduct prohibits bullying, intimidation and harassment. Students engaging in such behavior are dealt with immediately. Students who are victims of such behaviors are given the necessary support services and their parents are notified.
3. The students are closely monitored by trained staff and any indication of violent behavior, e.g., rumor of weapons, is immediately followed up with the involvement of local law enforcement, social services, mental health services and parents.
4. When students express any suicidal or violent intentions, the staff member alerts mental health services and parents, sometimes leading to hospitalization. Follow-up occurs on the part of the school psychologist with providers of clinical psychological and/or psychiatric care.
5. When there is any suspicion of abuse, appropriate agencies are notified and investigations are initiated. Mandated reporting expectations are honored, always involving the building administrator in concert with the school social worker, school nurse or school psychologist.

**5. EARLY DETECTION OF POTENTIALLY VIOLENT BEHAVIORS –
155.17 (c)(1)(xii)**

In order to prevent violence before it begins, staff and students should look for certain warning signs of potentially violent behavior. This information is presented to staff and students in September and is reviewed periodically throughout the school year. These concerns are identified and addressed in the Chittenango Central School District Code of Conduct. The following list was adapted from the International Association of Chiefs of Police, Guide for Prevention of School Violence. District-Wide Safety Plan

18. EMERGENCY DRILLS AND EXERCISES – 155.17(c)(1)(xiii)

A. CONDUCT OF DRILLS

Instructional sites within the District will hold one annual early dismissal and sheltering drill as well as routine fire drills. Periodic exercises and drills will also ensure the school staff's ability to effectively respond to emergencies and reveal shortcomings in the emergency plan.

1. Each Building Administrator will make arrangements to conduct the drills for their building. These drills must be conducted in accordance with State Education Department regulations:
 - Conducted at least once every school year;
 - Inclusive of transportation and communication procedures; and;
 - Held with at least one week's notice to parents or guardians
 - Early dismissal drills shall occur not more than fifteen (15) minutes earlier than normal dismissal time.
2. If requested, the Building Safety Team will assist in conducting drills. The Building Safety Team will evaluate the response, with local police and fire departments if possible, in order to improve the overall level of preparedness.
3. Emergency services agencies and the District will cooperatively conduct meetings to discuss the Building Safety Plans. Periodic exercises will assess the emergency responses outlined in the plan and the ability of participants in a simulated emergency. Such training may include "tabletop exercises" where participants do a verbal walk through of an emergency response situation. The School Safety Team for each building is available to assist in coordinating these simulations. This test is intended to reveal and correct any shortcomings within the plan.

B. FIRE DRILLS

A total of 12 emergency drills shall be conducted each year, with eight occurring before December 31st. The Building Administrator will make the appropriate local emergency responder officials aware of the timing of these drills. Emergency drills must be taken seriously at all times. In buildings where students are housed, teachers shall implement the procedures outlined in the Building-level Plan.

Eight (8) of these drills shall be evacuation drills and four (4) shall be lock-down drills. Drills shall be conducted at different times of the school day. At least one (1) of the twelve (12) drills shall be held during each of the regular lunch periods, or shall include special instruction on the procedures to be followed if a fire occurs during a student's lunch period.

At least two (2) additional drills shall be held during summer school in buildings where summer school is conducted and one (1) of these drills shall be held during the first week of summer school.

1. See that doors and windows are closed, doors unlocked, and lights are out before leaving their classroom (if safe to do so).
2. Take class list (if safe) and take attendance (if possible). Report missing students to the Building Administrator after students are safely outside.
3. Move students quickly to the designated exits.
4. Escort the class to a safe distance from the building and remain with students until called back into the building.

B. FIRE DRILLS

5. Be sure students know alternate escape routes from their classrooms.
 - Fire exits are marked on the floor plans of every building. Each room must contain a floor plan showing fire exits. All staff must become familiar with them.
 - Be sure that staff and students know alternate escape routes from the classroom.

C. BUS EMERGENCY DRILLS (see also Administrative Regulations 8212R.2)

1. A minimum of three (3) emergency drills are to be held on each school bus during the school year. The first drill is to be conducted during the first week of the fall term, the second between November 1st and December 31st, and the third between March 1st and April 30th. Students who ordinarily walk to school shall also be included in the drills.
2. Each drill shall include instruction in all topics mandated by the Education Law and the Commissioners' Regulations and shall include, but will not be limited to, the following:
 3. Safe boarding and exiting procedures
 4. The location, use and operation of the emergency door, fire extinguishers, first aid equipment and windows as a means of escape in case of fire or accident;
 5. Orderly conduct as bus passengers.

D. OTHER DRILLS

Additional drills, including lockdown drills and evacuation to another school or community site, should also be regularly scheduled.

20. IMPLEMENTATION OF SCHOOL SECURITY – 155.17(c)(1)(xi)

Certain procedures minimize or provide early warning of problems when unwanted persons are in a school building. The following procedures shall be implemented to improve security in the buildings:

A. BASIC PROCEDURES

1. All District employees are required to wear an **employee badge** whenever they're in any District facility, except as exempted for specific safety reasons. This includes all shifts and all levels of employment.
2. When school construction/renovation work is anticipated to occur on regularly scheduled school days, all contractor employees shall wear identification badges.
3. General access to buildings shall be limited to a clearly identified central access. All entrances, except for the main access, shall be locked and secured while classes are in session.

B. VISITOR PROCEDURES

The Superintendent encourages parents/guardians and other citizens to visit District schools and classrooms. The community should feel welcomed in our schools. Since schools are a place of work and learning, however, certain limits must be set for such visits. The Building Administrator, or designee, is responsible for all persons in the building and on school grounds. In light of today's security concerns building accessibility needs to be balanced with the safety of our students and staff.

As such, the following rules apply to visitors to the schools:

1. Signs shall clearly designate public entrances and sign-in procedures.
2. Anyone who is not a regular staff member or student of the school will be considered a visitor.
3. All visitors are required to report to the main entrance or office and sign a guest book. Guest books shall be maintained for two years. If a staff member observes a visitor, including a vendor, who is not known to them, the staff member shall request that person to identify themselves. If such a request is ignored, the staff member shall report to the Building Administrator, or designee, that an unauthorized person is in the building or immediately call law enforcement based upon a threat assessment.
4. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or after school public events are not required to register or sign-in the building.
5. All visitors are expected to abide by the rules for public conduct while on school property as outlined in the District Code of Conduct. Inappropriate conduct shall be reported to the Building Administrator or event supervisor immediately.
6. The Building Administrator is responsible to enforce the District Code of Conduct as applied to visitors.

20. IMPLEMENTATION OF SCHOOL SECURITY – 155.17(c)(1)(xi)

C. STAFF RESPONSIBILITIES

1. All staff should be aware of conditions in and around the building and report anything unusual to supervisors. Staff should scan their areas before leaving at night and upon entering in the morning to check for any unusual packages or items. Anything suspicious should be reported immediately to their supervisor or immediately call law enforcement based upon a threat assessment.
2. Upon observing a dangerous or armed person, school staff are not to engage that person but immediately call law enforcement and report their presence to the Building Administrator immediately. The Building Safety Plans contain detailed procedures for dealing with armed or dangerous persons.

21. INDIVIDUAL BUILDING INFORMATION

Each Building Safety Plan contains maps and floor plans of the buildings, and information on the number of staff and students in that school.

Violent and Disruptive Incident Reporting (VADIR)

OVERVIEW

The New York State Education Department's (SED's) Uniform violent and Disruptive Incident Reporting System (known as VADIR) gathers data on violent and disruptive incidents in schools and uses the information to comply with State and Federal reporting requirements and to identify schools as persistently dangerous, as required by the *No Child Left Behind* Act (NCLB) of 2001. Beginning in 2006, in addition to the list of persistently dangerous schools, the department has issued a watch list of schools whose number and types of violent incidents warrant concern and increased monitoring, but are not sufficient to identify them as persistently dangerous.

All public schools, boards of cooperative educational services, charter schools, and county vocational education, and extension boards are required to maintain individual incident reports on violent and disruptive incidents occurring on school property, which includes incidents occurring in or on a school bus as defined in Vehicle and Traffic Law § 142 and at school functions. These individual incident reports are not submitted to SED, but should be retained by the school for six years and be made available for review upon request by SED.

Each year, school superintendents and chief school officers of charter schools are required to submit to SED, a *Summary of Violent and Disruptive Incidents report (VADIR Summary Form)* For each school in the district or each charter school for the prior school year (July 1st through June 30th). The *VADIR Summary Form* includes information derived from the individual incident forms, such as tallies of incidents, offenders, and victims by type of incident, as well as other information relating to school safety. School superintendents and chief school officers of Charter schools complete the *VADIR Summary* form online using the web-based Basic Education Data System (BEDS), but SED also makes available a paper version of the form to facilitate recordkeeping and data entry. In many cases, school personnel complete the paper form and then forward it to the superintendent for review, certification, and entry of the data into the online BEDS system's *VADIR Summary Form*.

A “violent or disruptive incident” in a school setting is defined under section 100.2 of the NYS Education law and relates specifically to such activities that occur on the property of the school district, board of cooperative educational services or county vocational education and extension boards. Specific reporting requirements are linked to any and all “violent” incidents that occur on “School Property” which means “in or within any building, structure, athletic field, playground, parking lot or land contained within the real property boundary line of a public elementary or secondary school; or in or on a school bus ...”

ASSISTED EVACUATION PLANS FOR STUDENTS WITH SPECIAL NEEDS

An assisted evacuation plan form (see attached sample) should be completed for any child who has limited mobility and for any other child who would require assistance to leave the building in the emergency. These forms can be obtained from the Education Center.

The plan should include alternatives for situations in which the person with primary responsibility is not available.

It is suggested that the Building Administrator not be designated as the person with primary responsibility. In an emergency situation the Building Administrator must attend to many immediate demands and decisions. Also, the Building Administrator should be free to report to the designated place in the assembly area to meet staff members and to give instructions.

It is also suggested that the person with primary responsibility be someone who is likely to be near the child who needs assistance, not someone who may have to take time to travel through the building or against the flow of traffic.

One strategy for the evacuation of a child who cannot use the stairs unassisted, or who cannot negotiate crowded stairs quickly, is to designate an area of the stairwell out of the flow of traffic (Remember that the stairwells are designed to retard the spread of fire). The child remains there with an adult assistant until the students have passed and the stairs can be used.

This form should be completed for every child who needs any kind of special accommodations in emergency evacuations. Copies should be distributed according to the instructions on the form. The plan should be reviewed annually.
