

Dear Fourth Grade Student,

Hi, my name is Mrs. Pigula and I will be your fourth grade teacher next year. I am looking forward to meeting all of you this coming September. You have a lot to look forward to because fourth grade has a curriculum that's full of fun and interesting things to learn.

This year in fourth grade we will be studying many new and exciting units. In social studies, we will be studying about the history of New York State. The Iroquois unit is a favorite for many fourth graders. In science, we start the year by studying electrical circuits. Our first math unit will be with reviewing landmark numbers and combining larger numbers. In ELA, we will be reading books pertaining to different themes and authors. In fourth grade, each student receives their own iPad to use in the classroom. We incorporate the iPads into your daily routine to help enforce topics we are studying in the classroom. I look forward to an exciting year ahead.

As many of you know I am expecting a little bundle of joy this coming September. I should be at school with you the first couple days back and will return after Veterans Day in November.

Below are the supplies you will need for our classroom:

- 1 art smock
- 1 pair of scissors
- 2 composition books
- 1 blue folder
- 1 green folder
- 1 yellow folder
