

SUPPORT SERVICES GOALS

Support services are essential to the successful functioning of the school district. Management of auxiliary operations is therefore an important responsibility of the district administration. It should be remembered however, that education is the district's central function, and all support services shall be provided, guided and evaluated by this requirement.

In order to provide services that are truly supportive of the educational program, the Board of Education establishes these broad goals:

1. To provide a safe physical environment for teaching and learning and for students, staff, and the public;
2. To provide safe transportation and nutritious meals for students who use these services; and
3. To provide support services that meet district needs and promote district goals.

Adoption date: June 4, 2002

Effective: July 1, 2002
